**Statement of NVFC Chairman Philip C. Stittleburg on H.R. 3266**

"We applaud the efforts of Chairman Cox and the Select Committee on Homeland Security to reach out to the fire service during the crafting of this bill and we lend it our full support," said Philip C. Stittleburg, Chairman of the National Volunteer Fire Council. "This common-sense legislation will ensure that first responder funding for terrorism is distributed more fairly, while still protecting successful programs that existed pre-9/11, such as the Assistance to Firefighters Grant program."
